

RISK ASSESSMENT

Reliance on Databases:
Identifying existing risks

RISK BASED ORGANIZATIONAL STRUCTURE

Traditional Food Safety System

- Reactive approach
- Main responsibility with government
- No structured risk analysis
- Relies on end product inspection and testing

Level of risk reduction:
not always satisfactory

Modern Food Safety System

- Preventive approach
- Shared responsibility
- Addresses farm-to-table continuum
- Science based
- Use of structured risk analysis
- Establishes priorities
- Integrated food control
- Relies on process control

Level of risk reduction:
improved

SURVEILLANCE MONITORING & EVALUATION

Support Systems for Risk Assessment

1. MONITORING & CONTROL & SURVEILLANCE

- ❖ Enforcement - directed - result based - consumer benefit measured
- ❖ Preventive (Safety) - trend rising (e.g. color additives)
- ❖ Emerging risk -

GNCT database Analysis

- ❖ Pre-requisite learning
- ❖ Conceptualizing -
 - ❖ Risk based data base for FSSAI

Analyst Test Reports

S. No	Data requested from	No. of reports received	Time period
1.	Delhi (GNCT)	online	August 2011
2	Maharashtra	114	January-March, 2016
3	TamilNadu	50	January-March, 2016
4	Gujarat	18	January-March, 2015 and 2016
5	Karnataka	Not Received	
6	CFL, Kolkata		

GNCT - Data base

1. Good Data base - perhaps one of its kind in the country

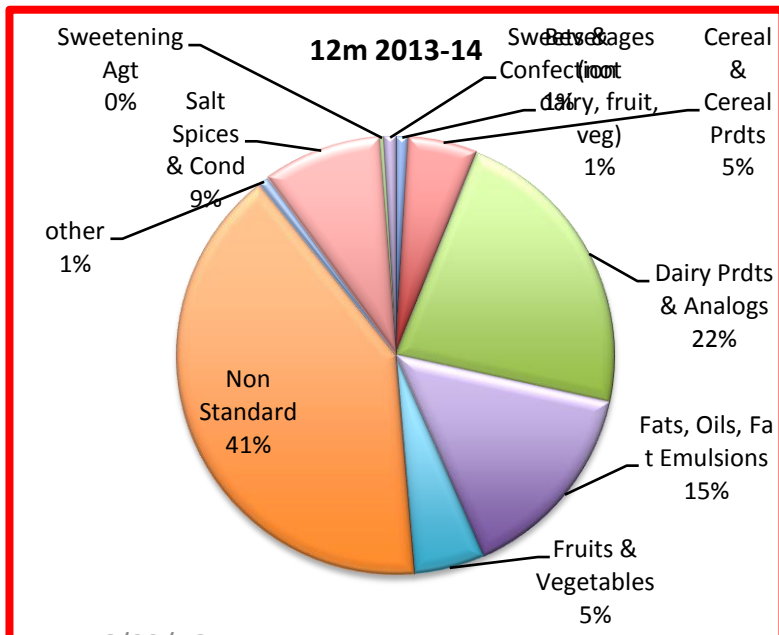

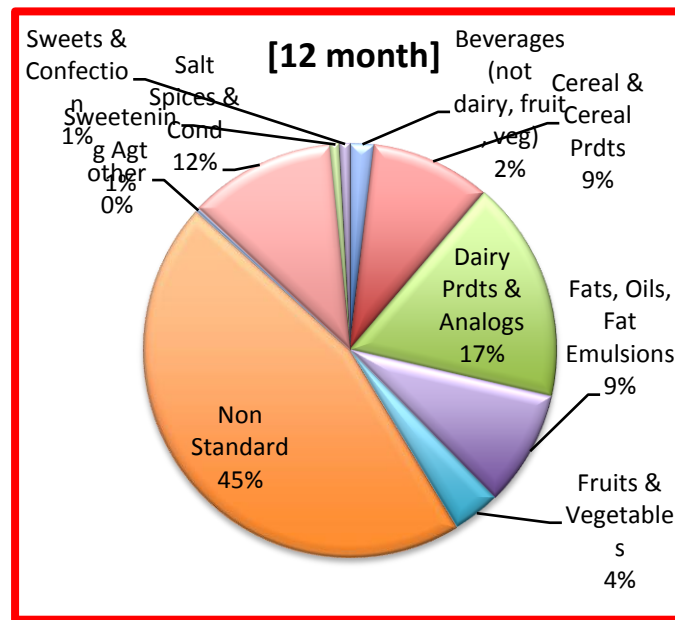

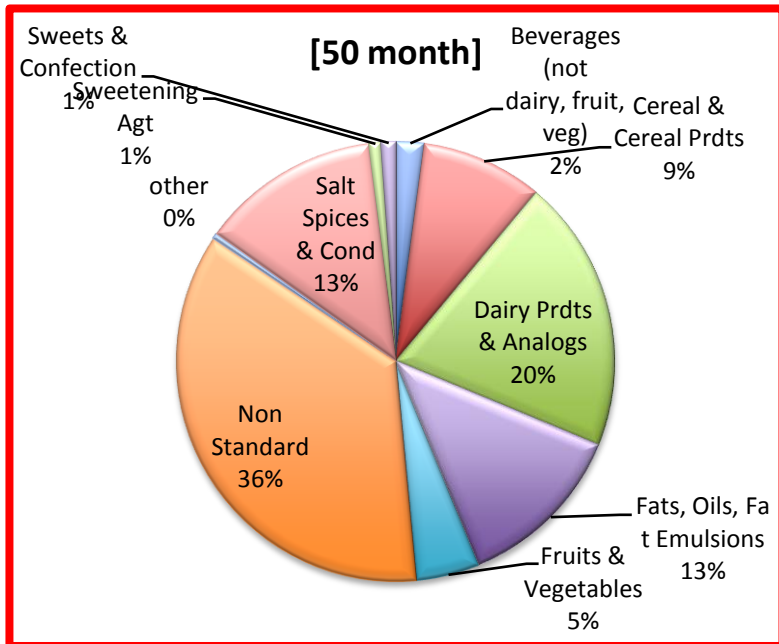

- Gives a wealth of information

2. Overview of All Tests done

- 2011 - 2016 (50months)
- 2015 (12 months)

3. Data mining of 2015 -

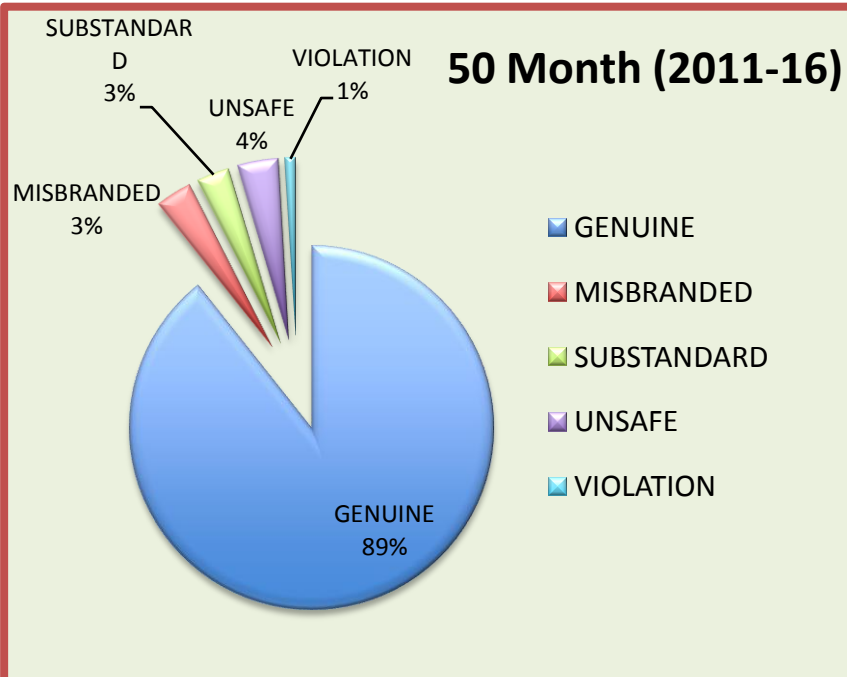

- Most frequent failure (GMSUV)
- Which food sector/products failing
- What parameter is it failing
- Why is it failing ???

Inspection & Analysis

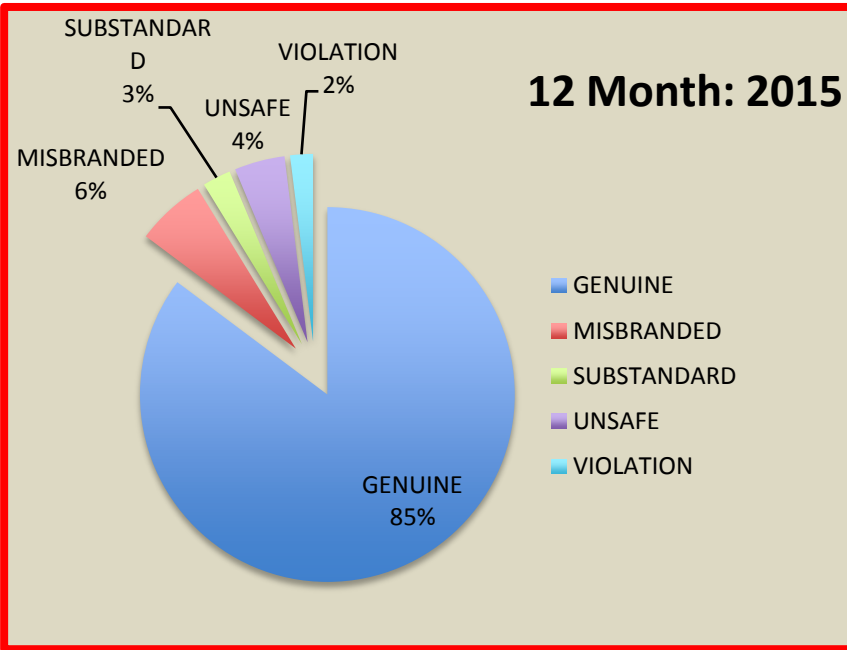

- ❖ Reflects similarity - routine
 - ❖ 36-45% Non Standard Foods (*always highest*)
 - ❖ 17-22% Milk & Milk Products
 - ❖ 9-13% Spices
 - ❖ 9-13% Oils
 - ❖ 4-5% Fruits & Vegetables

FROM 5/8/2011 TO 15/3/2016

1. "Tastemaker" tests higher for lead
2. Reasons - sources
3. Remedy - long term

- | | |
|------------------|---------|
| 1. Maximum Limit | 100 ppm |
| 2. Average | 146 ppm |

❖ Exceeding ML -

- legal infringement

❖ Exceeding ADI -

- determines safety

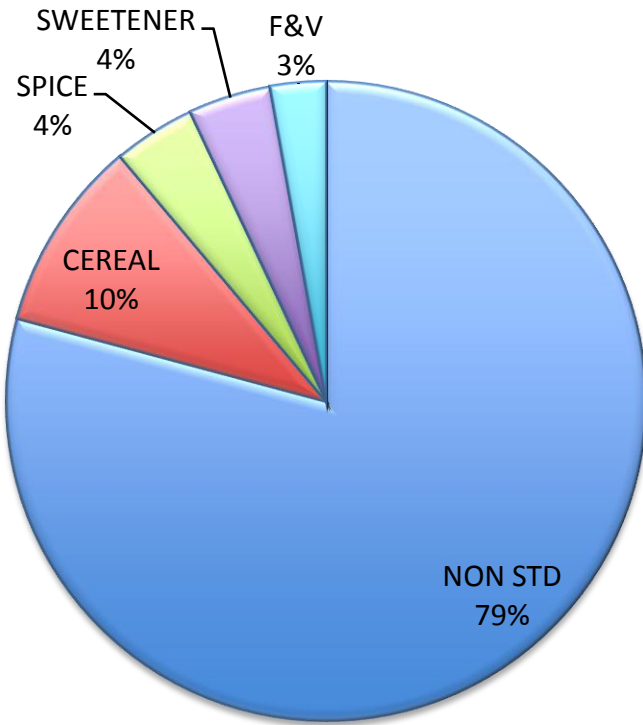

❖ Reason for excess ?

- Insufficiency of limit?
- Inability to test ?

❖ Remedy ?

What is the 'story'

UNSAFE FOODS 2015

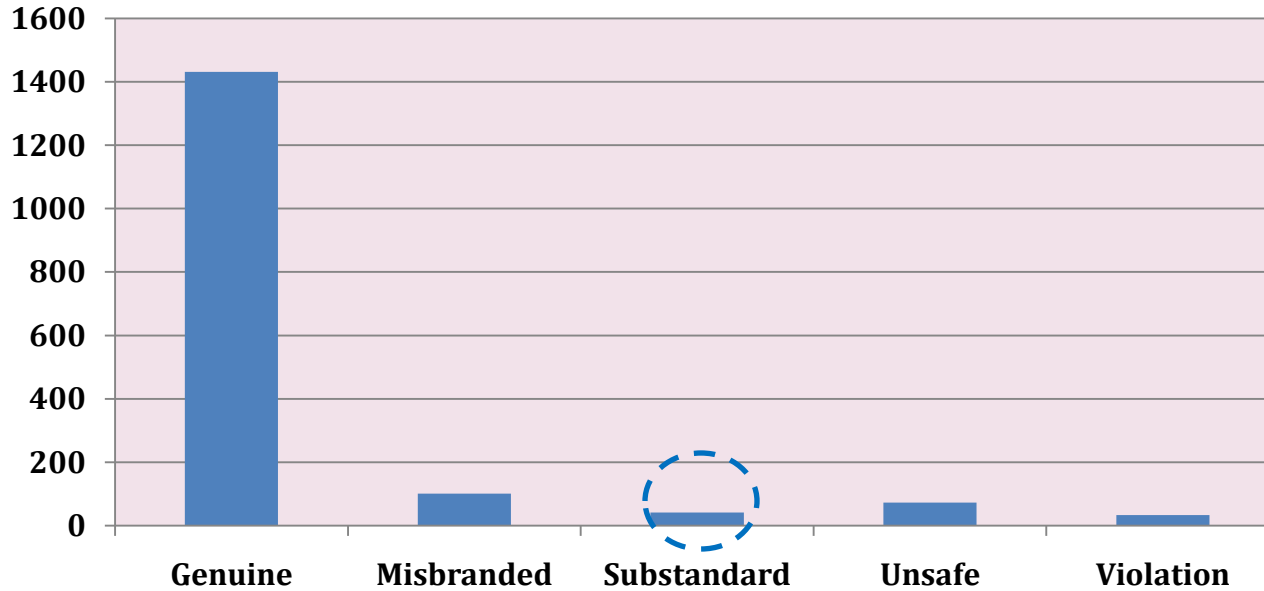

- NON STD
- CEREAL
- SPICE
- SWEETENER
- F&V

TOTAL UNSAFE 2015	
NON STD	57
CEREAL	7
SPICE	3
SWEETENER	3
F&V	2
TOTAL	72

SUB STANDARD

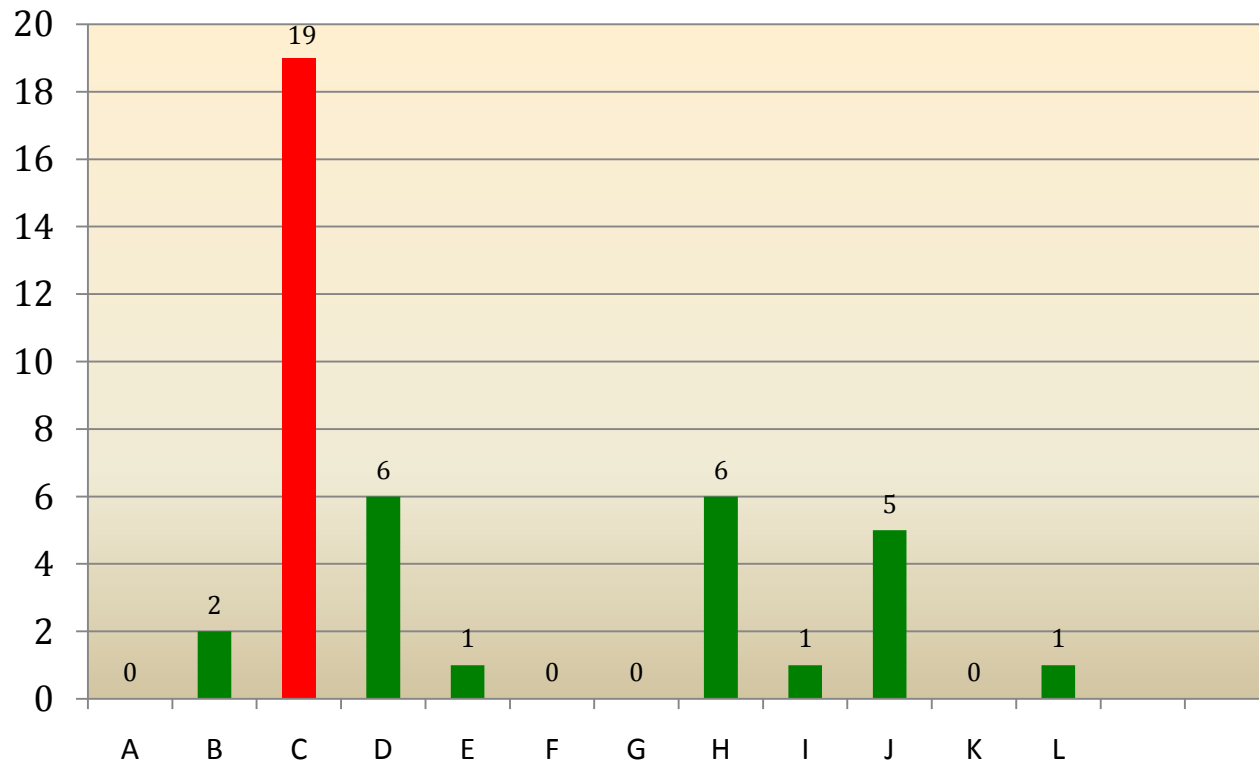

Sample Tested in 2015

Food Category	No. of sample tested
Genuine	1431
Misbranded	101
Substandard	41
Unsafe	73
Violation	33

“Sub-standard” an article of food shall be deemed to be sub-standard if it does not meet the specified standards but not so as to render the article of food unsafe

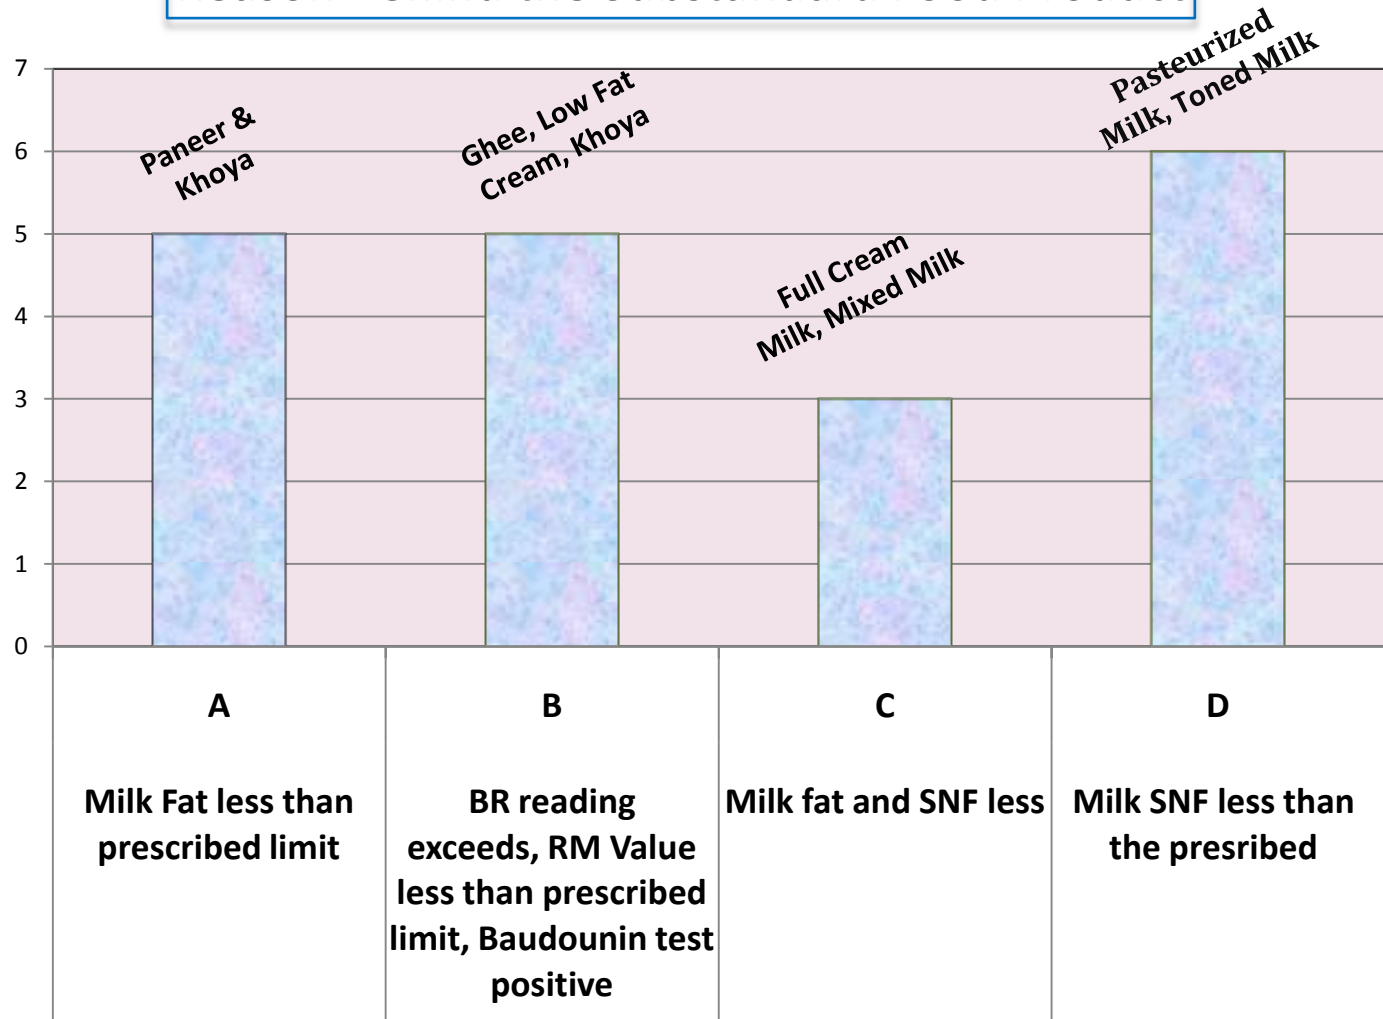

Analysis Report of Substandard Food Products

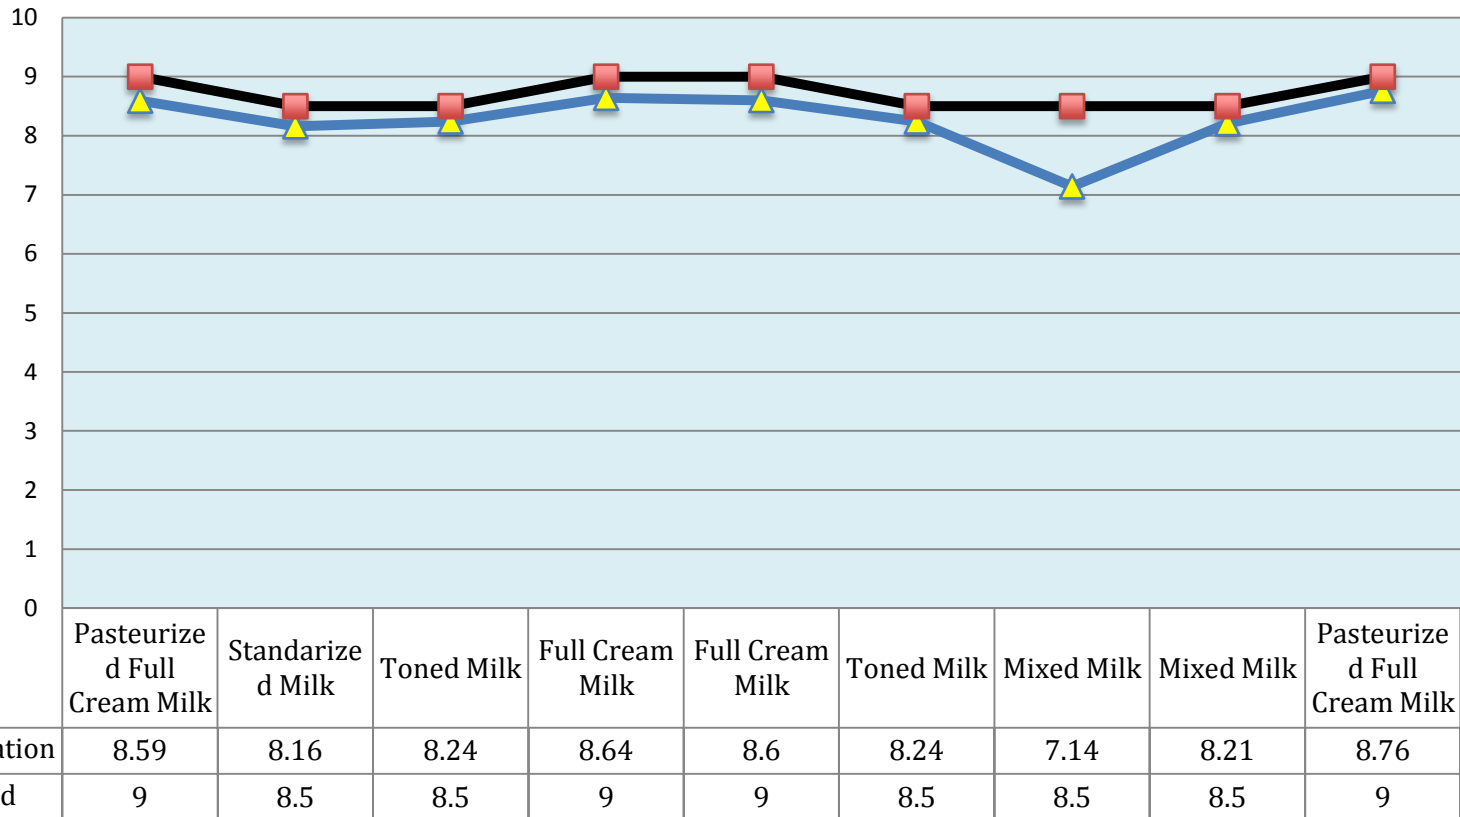

- A-Beverages
- B-Cereal and Cereal Products
- C- Dairy Products and Analogues**
- D- Fats, Oils and Fat Emulsions
- E-Irradiation Of Food
- F- Meat and meat Products
- G- Non Standard
- H- Salt, Spices and Condiments
- I- Sweetening agent
- J- Sweets and Confectionery

TOTAL 41

Reason Behind the Substandard Food Product

Reason Behind the Substandard Dairy and Dairy Product is SOLID NOT FAT

Data-based Surveillance and monitoring

1. Risk based inspections/analysis - food sector wise

- ❖ Fish, meat, poultry - *low to nil*
- ❖ Fresh fruit, vegetables - pesticide residues, contaminants - *low to nil*
- ❖ Food grains, nuts - toxins - *low to nil*

2. Failure reductions - intent and measure?

- ❖ E.g. Indian Sweets - exceeding color limits
- ❖ Milk - Solids non fat (SNF)
- ❖ Review of standards/analytical reproducibility

3. Targeted Enforcement Action

- ❖ Directed V/s Routine actions

4. Review Analyst decisions -

- ❖ Quality of citing offences
- ❖ Role of FSO/DO - in safety and risk reduction (review)

Analyst Test Reports -

FDA	Total Reports	Non Conforming	Conforming
Maharashtra	114	64	50
Tamilnadu	50	42	8
Gujarat	18	18	0

Summary

- National database
 - Risk based test reports
 - Risk based inspection reports (FSMS)
- Categorize food failures (by risk)
 - Safety (microbiological, contaminants, residues etc.)
 - Quality/Composition
 - Economic fraud
- Monitoring trends
- Enforcement Prioritization

Thank You

"Some bloke wants to know if we've carried out a thorough risk assessment?"
